What is a Curation Task?

THE UNIVERSITY OF AUCKLAND
LIBRARY

Access rights curation tasks

The curation tasks do the following:

- Update authorisation policy
- Create and update metadata

THE UNIVERSITY OF AUCKLAND
LIBRARY

Some examples of policies

- Freely available online
- Available to campus users only in Universities
- Available to administrators or discrete groups
- A mixture within an item of some parts being available and others restricted
- A mixture of different access for metadata and the associated bitstreams

Case Study - PhD Digital Thesis @UoA

- The default access option of digital PhD theses is Open Access at the University of Auckland
- Students are the copyright holder of their theses
- Students sometimes request to restrict access to
    - part of their theses, and/or
    - the supplementary materials

- So, is there an easy way to restrict access to the files that cannot be made open, mostly because of copyright restrictions or requested by the copyright holder?
