The Narrative and Metaphor SIN invites you to hear Dr Kirsten Locke share a musical presentation on:

**Temporality and Education**

Notions of narrative and metaphor will be explored in the context of a brief musical performance with a view to exploring the temporality and artistry involved in educative contexts. Is there room to critique the utilitarian and technicist view of teaching and learning in current educational research? Through engaging with the work of Jean-Francois Lyotard and Hannah Arendt, this presentation explores how music and the arts can speak to broader conceptions of what it means to be involved in teaching and research in the field of education.
