SUMMARY	
Chapter 1. <u>INTRODUCTION.</u>	
A. THE INACTIVATION OF NEUROHYPOPHYSEAL HORMONES.	
1. The Hormones	
(a) Oxytocin	1
(b) Vasopressins	1
(c) Tissue site of inactivation	3
(d) Molecular site of inactivation	
(i) Aminopeptidase action	10
(ii) C-terminal	11
(iii) Disulphide bond	11
(iv) Tissue aminopeptidase	11
2. Degradation by Liver Tissue	12
3. Degradation by Kidney Tissue	14
4. Degradation by Uterine Tissue	15
5. Degradation by Placental Tissue	
(a) The structure of the human placenta	17
(b) Degradation of neurohypophyseal hormones	23
6. Degradation by Pregnancy Serum Oxytocinase	
(a) General comment	25
(b) Methods of assay	
(i) Biological	25
(ii) Chemical	26
(c) Purification	27
(d) Properties	29
(e) Origins	33
(f) Function	36

B.	ALKALINE PHOSPHATASE IN PREGNANCY.	
(a)	General comment	40
(b)	Methods of assay	42
(c)	Purification	43
(d)	Properties (antibody production)	44
(e)	Histological localization	45
C.	CLINICAL APPLICATION OF OXYTOCINASE AND PLACENTAL ALKALINE PHOSPHATASE DETERMINATIONS	46
(a)	Oxytocinase	47
(b)	Placental alkaline phosphatase	48
D.	AIM OF THIS WORK	50

Chapter 2. METHODS AND MATERIALS

A.	GENERAL METHODS	
1.	Instrumentation	51
2.	Electrophoresis	
(a)	Acrylamide gels in thin sheets	52
(b)	Acrylamide gels in columns	53
(c)	Horizontal starch gels	53
3.	Immunological Techniques	
(a)	Gel diffusion	54
(b)	Microimmunoelectrophoresis	54
4.	Phosphorous Estimation	54
5.	Potassium Estimation	57
6.	Protein Estimation	57

B. OXYTOCINASE

1. Assay Procedures

- (a) L-cystine-di-p-nitroanilide as substrate
- (i) manual procedure 59
- (ii) automated procedure 60
- (b) S-benzyl-L-cysteine-p-nitroanilide as substrate
- (i) manual procedure 62
- (ii) automated procedure 64

2. Purification 68

3. Anti-oxytocinase columns

- (a) Antioxytocinase bound to sepharose 72
- (i) preparation of column
- (ii) absorption of antigen
- (iii) elution of antigen
- (iv) effect of neuraminidase on elution
- (b) Enzacryl 74
- (c) Glutaraldehyde 74
- (d) DEAE cellulose 74

5. Cystine aminopeptidase activity of placental extracts

- (a) Preparation of homogenate and removal of oxytocinase 78
- (b) pH optimum 78
- (c) effect of neuraminidase 79
- (d) effect of length of gestation and toxemia 80
- (e) effect of EDTA 80
- (f) effect of substrate 80

C.	GLUTATHIONE OXYTOCIN TRANSHYDROGENASE	
1.	Assay Procedure	81
2.	Purification	82
3.	Properties of Glutathione-oxytocin Transhydrogenase	
(a)	Stability	85
(b)	Inhibition and activators	85
(c)	Distribution	85
(d)	Specificity	85
4.	Antibody Preparation and Purification	86
D.	DEGRADATION OF OXYTOCIN BY PLACENTAL HOMOGENATES	
1.	Degradation of labelled oxytocin	87
2.	Chymotryptic activity of placental homogenates	
(a)	Enzyme Assay	89
(b)	Inhibition of enzyme activity	91
(c)	Effect of oxytocin on chymotryptic activity	92
(d)	Preparation of rat tissue homogenates	92
E.	ALKALINE PHOSPHATASE	
1.	Assay Procedure	
(a)	Manual method	93
(b)	Automated method for total alkaline phosphatase	93
(c)	Automated method for placental alkaline phosphatase	95
2.	Purification	96
3.	Antibody production	100

Chapter 3. RESULTS.

A. OXYTOCINASE

1. Assay Procedures

- (a) L-cystine-di-p-nitroanilide as substrate
- (i) manual method 122
- (ii) automated method 126
- (b) S-benzyl-L-cysteine-p-nitroanilide as substrate
- (i) manual method 128
- (ii) automated method 136

2. Purification

- (a) Purification by fractionation and gel filtration 138
- (b) Purification by antienzyme chromatography
- (i) adsorption on antienzyme column 139
- (ii) elution from antienzyme column 140
- (iii) effect of neuraminidase on elution 140

4. Cystine Aminopeptidase Activity of Placental Homogenates

- (a) pH optimum 146
- (b) Neuraminidase effect 146
- (c) Clinical state 147
- (d) Inhibition by EDTA 148
- (e) Substrate 148

B. GLUTATHIONE OXYTOCIN TRANSHYDROGENASE

1. Assay Procedure 152
- Variation of assay parameters
2. Purification 155

3.	Properties	
	(a) Stability	158
	(b) Inhibitors and activators	158
	(c) Distribution	159
	(d) Specificity	160
4.	Antibody Preparation and Purification	163
C.	DEGRADATION OF OXYTOCIN	
1.	Degradation of labelled oxytocin	
	(a) (³ H) tyrosine oxytocin	166
	(b) (¹⁴ C) glycineamide oxytocin	167
2.	Chymotryptic activity	169
D.	PLACENTAL ALKALINE PHOSPHATASE	
	Purification and Antibody Characterization	172
E.	LOCALIZATION OF ENZYMES IN PLACENTAL TISSUE	
1.	Histological Localization	177
	Alkaline Phosphatase	
2.	Fluorescent Protein Tracing	
	(a) Alkaline Phosphatase	177
	(b) Oxytocinase	182
	(c) Glutathione oxytocin transhydrogenase	188
3.	Subcellular Localization	
	(a) Ultracentrifugation	188
	(b) Sucrose gradient centrifugation	193
F.	ENZYME LEVELS IN PREGNANCY	
1.	Oxytocinase as an index of placental function	195
2.	Alkaline phosphatase as an index of placental function	199
3.	Inactivation of serum enzymes with anti-sera	
	(a) oxytocinase	201
	(b) alkaline phosphatase	204

Chapter 4. DISCUSSION

A.	ENZYMES DEGRADING OXYTOCIN	
1.	Pregnancy Serum Oxytocinase	
	(a) Assay Procedures	205
	(b) Purification Methods	220
	(c) Enzyme Properties	224
2.	Placental Glutathione Oxytocin Transhydrogenase	228
	(a) Assay Procedures	229
	(b) Purification Methods	230
	(c) Enzyme Properties	231
3.	Placental Carboxyamidopeptidase Activity	235
4.	Comparison of Enzymes Attacking Oxytocin	237
B.	PLACENTAL ALKALINE PHOSPHATASE	
	(a) Assay Procedure	240
	(b) Purification Method	240
C.	LOCALIZATION OF TISSUE ENZYMES	
1.	Techniques of identifying enzymes in tissues	(a) Histochemical 241
		(b) Immunofluorescent 244
		(c) Subcellular 248
2.	Localization of Oxytocinase	250
3.	Localization of Alkaline Phosphatase	251
4.	Localization of glutathione-oxytocin transhydrogenase	252
D.	CLINICAL APPLICATIONS OF ENZYME ACTIVITIES	
1.	Assays for placental enzymes	253
2.	Function of Oxytocinase in pregnancy	255

Chapter 5. CONCLUSIONS AND FUTURE EXPERIMENTS

A. INACTIVATION OF OXYTOCIN BY PLACENTAL TISSUE

- | | |
|--|-----|
| 1. Oxytocinase | 257 |
| 2. Glutathione-oxytocin transhydrogenase | 258 |
| 3. Carboxyamidopeptidase | 259 |

B. LOCALIZATION OF ENZYMES IN PLACENTAL TISSUE

- | | |
|--|-----|
| 1. Placental alkaline phosphatase | 259 |
| 2. Oxytocinase | 260 |
| 3. Glutathione-oxytocin transhydrogenase | 260 |

Chapter 6. APPENDICES.

- | | |
|--|-----|
| 1. Abbreviations | 261 |
| 2. Acknowledgements | 262 |
| 3. Publications arising from this work | 263 |
