University of Auckland
Preface

As a Subject Librarian for the School of Counselling, Human Services and Social Work at the Faculty of Education at the University of Auckland I am often asked to search for literature related to social work with Māori clients and bicultural social work practice. This bibliography is an attempt to bring together research and literature of interest to social work professionals working with Māori in New Zealand.

Scope
While the majority of material included has been published in, or about New Zealand, selected international material has also been included where this was considered relevant to the New Zealand situation.

The bibliography includes journal articles, conference papers, government reports and selected book.

Information is arranged by selected “fields of practice” subject headings in the APA style.

No one bibliography is ever likely to be comprehensive. I hope however that the material presented here will be of assistance to social workers as they attempt to increase their knowledge, skills, and awareness of bicultural issues and professional practice with Māori.
