Pasifika Social Work in New Zealand

1990-2008

Tricia Bingham

Sylvia Ashton-Warner Library

Faculty of Education

University of Auckland

Preface

As a Subject Librarian for the School of Counselling, Human Services and Social Work at the Faculty of Education at the University of Auckland, I am often asked to search for literature on Pasifika approaches to social work practice and research. This bibliography is an attempt to bring together research and literature of interest to social work professionals working with Pasifika peoples in New Zealand.

Scope
While the majority of material included has been published in, or about New Zealand, selected international material has also been included where this was considered relevant to the New Zealand situation.

The bibliography includes references to journal articles, conference papers, government reports and selected books.

Information is arranged by selected "fields of practice" subject headings, in the APA style.

No one bibliography is ever likely to be comprehensive. I hope however that the material presented here will be of assistance to social worker's professional practice as they attempt to increase their knowledge, skills and awareness of Pasifika issues.
