THE UNIVERSITY OF AUCKLAND, 1966

PLANKTON OF THE HAURAKI GULF

by

John Blackburn Jillett

A thesis submitted toward
the degree of Doctor of
Philosophy in Zoology.

ACKNOWLEDGMENTS

I gratefully acknowledge the assistance of the numerous colleagues and friends, particularly for their help with boat handling. I am especially grateful to Messrs. D. & W. Wray of Leigh who, while refusing any payment, placed their boat and their services at my disposal for the Jellicoe Channel work.

I wish to thank Professor J.E. Morton, who supervised the early stages of this work, for his support and encouragement.

Dr. R.M. Cassie supervised the greater part and the latter stages of this work and his ready advice and helpful criticisms have greatly encouraged and assisted me. Sincere appreciation is also expressed to Dr. V. Cassie, for general advice and for working up phytoplankton data which supplemented this work, and to Dr. E.J. Batham for facilities at the Portobello Marine Biological Station, University of Otago, during the final stages of preparation.

Finally, I am greatly indebted to my wife who has encouraged and supported this work and who undertook the laborious task of typing this thesis.

This work was supported by grants from the New Zealand University Grants Committee.

TABLE OF CONTENTS

	<u>Page</u>
INTRODUCTION:-	1
Historical background	1
The Hauraki Gulf	2
Description of Stations and field procedure	5
Laboratory procedure	10
SECTION I:- THE PHYSICAL ENVIRONMENT FOR ZOOPLANKTON	12
Seasonal variations of temperature, salinity and turbidity	12
Discussion	17
SECTION II:- ZOOPLANKTON I	
OCCURRENCE AND SEASONALITY OF ZOOPLANKTON COMPONENTS	32
List of zooplankton components	32
Copepods	42
Non-copepod holoplankton	68
Larvae of littoral and benthic animals	83
SECTION III:- ZOOPLANKTON II	
COMPOSITION OF THE ZOOPLANKTON	94
Relative abundance of the major groups	94
Affinities of Hauraki Gulf zooplankton	96
Seasonal variations in zooplankton composition	103
SECTION IV:- ZOOPLANKTON III	
SEASONAL VARIATION OF OCEANIC INFLUENCE	120
Occurrence of oceanic species	121
Measures of diversity and change	123
Variations of plankton composition in relation to hydrology	129
Discussion	131
SECTION V:- ZOOPLANKTON IV	
VARIATIONS OF ZOOPLANKTON NUMBER AND VOLUME	134
Total numbers	134
Catch volume	137
Discussion	140
SUMMARY	146
REFERENCES	149
APPENDIX I: Numerical plankton data for Station A	157
APPENDIX II: Numerical plankton data for Station B	200
